ELROB 2022

30 May - 3 June 2022

Eggendorf, Austria

Team Information

develops robots dedicated to Defence, security and rescue applications. Robots range from 3 kg to several tenth of tons and are highly modular so that they can be easily configured on the field to address a large set of missions. In ELROB 2022, Nexter Robotics will only use small tactical robots belonging to the NERVA family; NERVA-LG and NERVA-XX will be equipped with several and various payloads (cameras, CBRN sensors, disruptors...).

Sponsors: Nexter Systems (France) and KMW (Germany)

Selection of scenario:

- Reconnoitring of structures (3D mapping & find simulated radiation & chemical sources)
- ~~Mule (shuttle between two locations)~~
- ~~Convoying (transport with two vehicles)~~
- ~~Search & Rescue (SAR) / CasEvac (find and drag a dummy body)~~
- Reconnaissance and disposal of bombs and explosive devices (EOD/IED; **for professionals only!**)

Proof of citizenship:: A copy of team leader passport will do (will not be published)!
